

Chicken Chase

SUPPLIES: 2 balls that are different sizes or different colors

This game is best played with groups of 6-10 people, so grab your family, friends, and even the neighbors!

Have your group form a circle. Hold up one of the balls. This ball will be the chicken. The other ball is the farmer. Give the chicken to 1 person in the circle, and the farmer to a person sitting across from the chicken.

Start passing the chicken and the farmer around the circle, in the same direction. The object of the game is for the farmer to catch the chicken, but the chicken does not want to be caught.

The faster you pass the farmer the quicker the farmer can catch the chicken! The farmer catches the chicken when both balls are held by the same person in the circle.
